The United States entered World War I in 1917. Scarsdale responded with a more elaborate display of national pride on July 4th, with a parade and other events attended by around 700 people.

The pool complex, opened in 1969, soon became a prime location for July 4th celebrations. At first the festivities were restricted to pool members. In 1976 the bicentennial celebration included a fireworks display, open to all residents, starting a tradition that continues today.

## Happy Independence Day

DRAWN BY THE LURE of bombs bursting in air, like those above, an estimated 9000 were at the Scarsdale Pool Saturday evening, while 2000-3000 more watched the Bicentennial pyrotechnics from outside. Despite the unprecedented multitude all went smoothly except for the one hour traffic jam produced when the departing crowed all tried to drive out of the three parking lots in the area onto Mamaroneck Road at the same time.
